SUMMARY

"Ubuntu Desktop 14.04" was released on April 17, 2014 by the Canonical company: This version of "Ubuntu.." installs, starts up, and shuts faster relative to previous versions. It continues to have great support for over-the-air and cable television viewing, karaoke music, and analog fax sending and receiving.

TOPICS

- Downloading and installing Ubuntu 14.04
- Run "Software Updater" prior to installing any third-party software programs.
- Install and run Kaffeine for over-the-air and/or television viewing

TOPICS (continued)

- Install and run "efax-gtk" for analog fax transmission and reception
- Install and run "PyKaraoke" to play .KAR, .MID, and .MIDI song files that display lyrics.

Downloading and Installing Ubuntu 14.04

- Use a Web browser to go to <http://www.ubuntu.com/desktop>

Beach Boys - California_dreaming.kar

All the leaves are brown
And the sky is grey

I've been for a walk
On a winter's day

I'd be safe and warm
If I was in L. A.
