SUMMARY

The ~$150 Mohu "Sky.." series of amplified antennas outperform any other any others that we have tested for receiving ATSC television channels over-the-air. Here is our advice on:

• the somewhat confusing "stealth model numbers of these antennas

• how to install these amazing antennas
TOPICS

• Mohu's "Sky.." Outperforms Competitors

• Tricks To Get Even More More Channels with a Mohu "Sky.." Antenna

• Is Mohu "Sky.." Overpriced?

• Stealth Model Numbers for Mohu Antennas and Amplifiers
TOPICS (continued)

• "Sky.." Model Number History
• "Jolt.." Amplifier Model Number History
• Our Challenging Struggle to Repair a Mohu "Sky.."
MOHU'S "SKY.." OUTPERFORMS COMPETITORS

• In the competitive and abundant indoor TV antenna category, Mohu's "Sky.." outperformed all of the competitors antennas that we tested.

• Here are the results of a comparison that we performed from our location here in California:
MOHU'S "SKY.." OUTPERFORMS COMPETITORS (continued)

• A Mohu "Sky 60" (model MH-110585) received 25 Mt. Wilson/Mt. Harvard ATSC television stations

• When we bypassed the bundled amplified, we received 15 Mt. Wilson/Mt. Harvard ATSC television stations, the same number of channels as our "do it yourself" stick antenna
• After 19 months, the bundled "Jolt" amplifier died and we replaced it with a later model of "Jolt" amplifier.
Mohu Sky 60 TV Antenna, Outdoor, Amplified, 60 Mile Range, Durable Lightweight, Mount Kit Included, Roof or Attic, 4K-Ready HDTV, 30 Foot Detachable Cable, Premium Materials for Performance, MH-110585

MOHU'S "SKY.." OUTPERFORMS COMPETITORS (continued)

- An "Antennas Direct" "Clearstream Eclipse" antenna received 25 Mt. Wilson/Mt. Harvard stations, the same number of channels as the Mohu "Sky 60" antenna.
• This "Antennas Direct" "Clearstream Eclipse" is totally dependent on its bundled amplifier: When we bypassed it, no television channels were received
Then this "Clearstream Eclipse" antenna's bundled amplifier died after two weeks of use so we returned the entire antenna to Amazon.

Nevertheless, this antenna is the top-selling and top-rated indoor television antenna on Amazon so lots of customers must be happy with it!

- PRIMARY USES AND APPLICATIONS - This Coaxial cable is used for connecting a cable television, satellite receiver, cable modems, VCR, cable box, digital router, antenna, computer network connections, digital audio, converter box and for other audio and visual purposes.
- IN-WALL USE – Ultra Clarity Cables CL3 cable are in wall rated for fire safety codes. Multi-purpose wire used for security systems, speaker wire, intercom systems, nurse call buttons, and more.
- SUITABLE ANYWHERE - Triple Shielded RG6 coaxial cable perfect for outdoor or indoor use. These Triple Shielded CL3 cable offers protection from electric shock which is made to carry more voltage.
- GOLD PLATED CONNECTOR - The coaxial cable is gold plated which minimizes interference and provides a reliable smooth surface that connects perfectly with the mated surface, plus this cable is corrosion resistant.
- HIGH QUALITY CONNECTOR - Durable coaxial cable connector that will not pull off, break, lose signal or come loose.

TRICKS TO GET EVEN MORE CHANNELS WITH A MOHU "SKY.." ANTENNA

• Two tricks to receive more of the weaker channels in your area:

✓ Trick 1:
Do Not Use the Provided Coaxial Cable Between the Bundled "Jolt Amplifier" and the Antenna

✓ Trick 2:
Put the Mohu "Sky.." in a Horizontal Orientation
TRICKS TO GET EVEN MORE CHANNELS WITH A MOHU "SKY.." ANTENNA (continued)

• "Trick 1" Details:
Do Not Use the Provided Coaxial Cable Between the Bundled "Jolt Amplifier" and the Antenna:
Instead, connect the "Jolt Amplifier" directly to the antenna:
TRICKS TO GET EVEN MORE CHANNELS WITH A MOHU "SKY.." ANTENNA (continued)

• ("Trick 1" details continued:) The installation instructions that are bundled with a Mohu "Sky.." antenna tell you to install it as follows:
TRICKS TO GET EVEN MORE CHANNELS WITH A MOHU "SKY.." ANTENNA (continued)

- Antenna
  ---> coaxial cable
  ---> Jolt Amplifier
  ---> TV set or TV tuner:
TRICKS TO GET EVEN MORE CHANNELS WITH A MOHU "SKY.."

ANTENNA (continued)

• We were able to receive 3 additional weaker television channels as follows:
  Antenna --->male-F connector to male-F connector adapter
  --->Jolt Amplifier
  --->coaxial cable
  --->TV set or TV tuner
SkyHDTV® Antenna -> MALE-F CONNECTOR TO MALE-F CONNECTOR ADAPTER -> Power Adapter* -> Amplifier

30 ft. Coaxial Cable
TRICKS TO GET EVEN MORE CHANNELS WITH A MOHU "SKY.." ANTENNA (continued)

- A female-N connector to female N connector adapter is not bundled with any of the models of the Mohu "Sky.." so it or a very short RG-6 coaxial cable has to be purchased separately:

TRICKS TO GET EVEN MORE CHANNELS WITH A MOHU "SKY.." ANTENNA (continued)

• "Trick 2" Details:
Put the Mohu "Sky.." in a Horizontal Orientation:
All of the bundled documentation that is bundled with a Mohu "Sky.." antenna tell you to mount the antenna vertically like a "Stop" sign as shown in the blue circle:
TRICKS TO GET EVEN MORE CHANNELS WITH A MOHU "SKY.." ANTENNA (continued)

• ("Trick 2" Details continued:) However, we received 3 additional weaker television channels when we mounted our "Sky 60" in a horizontal orientation as shown:
IS MOHU'S "SKY.." OVERPRICED?

• A Mohu "Sky.." antenna is overpriced if your television set or television tuner is located at a place where a rusty coat hanger or the previously-mentioned "do it yourself" stick antenna is adequate.

• Lots of folks who review antennas are located in areas where they have strong television stations.
STEALTH MODEL NUMBERS ON MOHU ANTENNAS AND AMPLIFIERS

- Mohu does not print the model numbers and date of manufacture on their antennas and amplifiers
- For their amplifiers, this information will not appear on the box or on the documentation that is shipped with the amplifier
For each their antennas, this information will appear only once on the front or the edge of the box that the antenna is shipped in.
STEALTH MODEL NUMBERS ON MOHU ANTENNAS AND AMPLIFIERS (continued)

• We found out in January of 2018 that some sellers will take advantage of this lack of clarity by placing a tag that shows a current model number on a box that contains an older model of antenna. We will provide details about this unfortunate case of deceit at the end of this presentation.
STEALTH MODEL NUMBERS ON MOHU ANTENNAS AND AMPLIFIERS (continued)

• When you procure a Mohu antenna and/or amplifier, you should attach a permanent label that shows the exact model number, the date of manufacture (if available on the box that the antenna arrives in), and/or the date of purchase.
We do not recommend the use of adhesive labels such as Dymo labels because their adhesive dries up and the labels fall off fairly soon after you install them.
STEALTH MODEL NUMBERS ON MOHU ANTENNAS AND AMPLIFIERS (continued)

• As soon as any Mohu antenna and/or amplifier arrives into your possession, and before you install it, use a permanent ink marker and a cable tie marking tag to label the antenna and the associated amplifier:
Acme 160 PCS 6 inch Nylon Cable Marker Self locking Type. Nylon Cable Ties, Ethernet Wire Zip, Assorted Colors Nylon.

"JOLT.." MODEL NUMBER HISTORY

All "Sky.." antennas are bundled with a "Jolt" amplifier:

There are four models of "Jolt" amplifier:

- MH-004078, UPC = 855470004078, gray
- MH-110534, white conical shape, UPC = none
- MH-110569, white trapezoidal shape, UPC = none
- MH-110600, white conical shape, UPC = none
The Mohu company did not register the later three "Jolt.." models with the UPC system so those three models do not have an UPC code.

However, the later three models of "Jolt." all have "ASIN" numbers: "ASIN" = "Amazon Standard Identification Number"
"JOLT.." MODEL NUMBER HISTORY
(continued)
MH-004078 has a no ASIN number.
MH-110534: white conical shaped, has an ASIN of B00FWKHHPO, date first listed on Amazon was October 1, 2013.
MH-110569: white trapezoidal shaped, has an ASIN of B00IPY7ZZ6, date first listed on Amazon was March 16, 2014.
MH-110600: white conical shaped, has an ASIN of B00HSMK44K, date first listed on Amazon was January 6, 2014.
MH-004078 was not available to us

MH-110534: received fewer channels than the MH-110569 but more channels relative to the MH-110600 (white conical shaped, Amazon date of October 1, 2013)

MH-110569: received more channels than the other two amplifiers that we tested (white trapezoidal shaped, Amazon date: March 16, 2014.)

MH-110600: received fewer channels than the other two amplifiers that we tested (white conical shaped, Amazon: January 6, 2014)
If you go to Mohu's Web site, you will find that they are currently only selling the MH-110569 based on the fact that the amplifier that is shown is the trapezoidal model and the MH-110569 is their only trapezoidal-shaped amplifier:
"JOLT.." MODEL NUMBER HISTORY
(continued)

• See http://store.gomohu.com/jolt-digital-tv-antenna-amplifier.html
Jolt Digital TV Antenna Amplifier

$29.99  In stock

Quick Overview

- Improves any passive antenna.
- One of a kind RF filtering with Mohu CleanPeak™ filter technology
- Receive more channels
- Decrease pixelation on unstable channels
"JOLT.." MODEL NUMBER HISTORY (continued)

• If you go to Amazon's Web site, you will find that all four models of Mohu's "Jolt" amplifiers are available for sale but we recommend the trapezoidal MH-11056 model based on our extensive testing of this model.
"JOLT.." MODEL NUMBER HISTORY
(continued)

- Spoiler alert: Winegard "Boost XT" antenna amplifier outperforms all models of the Mohu's "Jolt" antenna amplifier so you can usually receive more channels by paying a little more for a Winegard "Boost XT" antenna amplifier
Amazon.com and Walmart.com both claim that the MH-110600 and MH-004078 are equivalent but other Web sites claim that they are not the same:
"JOLT.." MODEL NUMBER HISTORY (continued)

- A photo of the MH-004078 version of the "Jolt.." can be found at https://www.walts.com/accessories/antenna/mohu-antenna-mh-004078
The revolutionary Mohu Jolt is a powerful, high performance digital antenna amplifier with state-of-the-art low noise design and low-loss RF filtering that takes over-the-air television to new heights. By leveraging Mohu new CleanPeak filtering technology, the Jolt rejects troublesome high-power cellular and FM signals, thus maximizing the alliance of your antenna and your television tuner for a more enjoyable over-the-air experience.
Another photo of the MH-004078 version of the "Jolt.." can be found at https://www.cnet.com/products/mohu-jolt-rf-amplifier/specs/
Mohu Jolt - RF amplifier

Part Number: MH-004078
"JOLT.." MODEL NUMBER HISTORY (continued)

In Stock.
Want it tomorrow, May 3 to 92646? Choose One-Day Shipping at checkout. Ships from and sold by Amazon.com in easy-to-open packaging. Gift-wrap available.

- Mohu Clean Peak filter technology specially designed to amplify TV stations and filter out any RF signals that can hinder picture quality providing you with a clearer picture.
- Designed with other passive TV antenna amplifiers in mind, Jolt offers a sleek appearance that will enhance both your HDTV antenna's visual appeal as well as your antenna's channel reception.
- Compatible with any non-amplified antenna. Jolt utilizes a low-noise figure and one-of-a-kind RF filtering to enhance signal strength.
- Jolt TV antenna amplifier offers two power options - either with the USB port on the back of your TV or the included AC wall adapter.
- Amplify: Get More Channels & Higher Picture Quality- 10dB Gain.

• On March 21, 2018, the Amazon Web site started offering a "Mohu Fuse TV Antenna" for sale. It looks like a "conical Mohu Jolt" amplifier that is colored black instead of white. As of August 2018, we have no actual hands-on experience with this amplifier:
Mohu

OUR CHALLENGING STRUGGLE TO REPAIR A MOHU "SKY.." ANTENNA

• 2016-04-27: Purchased a model MH-110585 "Mohu Sky 60" from Fry's Electronics. Date code = P-560-20140421. It was bundled with a conical Mohu "Jolt" amplifier model MH-110600.
OUR CHALLENGING STRUGGLE TO REPAIR A MOHU "SKY.." (continued)

• 2018-01-24:
  After 19 months of use, this model MH-110585 "Mohu Sky 60" antenna went into failure mode with all channels fuzzy and 6 channels missing
OUR CHALLENGING STRUGGLE TO REPAIR A MOHU "SKY.." (continued)

- 2018-01-26: Ordered a new MH-110958 Mohu "Sky HD" antenna from Amazon. This latest and greatest model of "Sky.." is supposed to be bundled with a conical MH-110600 amplifier.
OUR CHALLENGING STRUGGLE TO REPAIR A MOHU "SKY.." (continued)

- model MH-110533 "Mohu Sky 60"
- model MH-110585 "Mohu Sky 60"
- model MH-110601 "Mohu Sky 60"
- model MH-110785 "Mohu 60"
- model MH-110788 "Mohu Air 60"
- model MH-110866 "Mohu Air 60"
- model MH-110958 "Mohu Sky 60"
Our challenging struggle to repair a Mohu "Sky.." (continued)

• 2018-01-28:
The "new" antenna arrived from Amazon but it turned out to be an older model MH-110601 instead of the newest MH-110958 that I ordered.
OUR CHALLENGING STRUGGLE TO REPAIR A MOHU "SKY.." (continued)

• model MH-110533 "Mohu Sky 60"
• model MH-110585 "Mohu Sky 60"
• model MH-110601 "Mohu Sky 60"
• model MH-110785 "Mohu 60"
• model MH-110788 "Mohu Air 60"
• model MH-110866 "Mohu Air 60"
• model MH-110958 "Mohu Sky 60"
2018-01-28 (continued): The box that the antenna arrived in had two model number labels on it: one was faded and the other was newer-looking:
The newer-looking label looked like this:
Mohu Sky FFP
MH-110958

8 54449 00485 9
OUR CHALLENGING STRUGGLE TO REPAIR A MOHU "SKY." (continued)

• 2018-01-28 (continued):
  The faded label looked like this:
OUR CHALLENGING STRUGGLE TO REPAIR A MOHU "SKY.." (continued)

• 2018-01-28 (continued): The "new" replacement antenna arrived bundled with an older model trapezoidal model MH-110569 "Jolt" amplifier instead of the conical MH-110600 amplifier that I expected to get:
• 2018-01-28 (continued):
  I installed this "new" antenna but it did not receive 4 TV channels that are fairly strong at my location.
• 2018-01-28 (continued):
  I removed the "new" antenna and then I re-installed the old, failed MH-110585 "Mohu Sky 60" antenna
• 2018-01-28 (continued):

I replaced the old, conical Mohu model MH-110600 "Jolt" amplifier with the MH-110569 trapezoidal Jolt amplifier that had just arrived. This combination of old antenna and newly-arrived Jolt amplifier restored all television channels for my Toshiba television set.
2018-01-28 (continued): Apparently, the old, conical Mohu "Jolt" amplifier model of the old MH-110585 "Sky.." antenna was the only part that had failed and replacing it with the newly-arrived MH-110569 trapezoidal Jolt amplifier resulted in an operational television antenna system.
Serendipitous discovery:
As stated earlier, we discovered that this older model trapezoidal model MH-110569 "Jolt" amplifier outperforms all the other models of "Jolt" amplifiers that we have ever tested by pulling in more television stations.
