

REPAIRING A "CORRUPTED RECYCLE BIN" IN "WINDOWS.."

HIGH-LEVEL EXECUTIVE SUMMARY:

A "corrupted recycle bin" is an annoying hard drive error that makes the "Windows.." recycle bin incapable of storing "deleted" files and folders. The "Windows 8 Developers Preview" which is also known as "Windows 8 Pre-beta" has caused "corrupted recycle bin" errors for many of our external USB 3 and USB 2 hard drives. This procedure provides a permanent repair for the "corrupted recycle bin" problem.

"CORRUPTED RECYCLE BIN" PROBLEM IN "WINDOWS.."

When you try to delete a file or folder, you get a box that says: "The Recycle Bin on <drive letter>:\ is corrupted. Do you want to empty the Recycle Bin for this drive?".

While this problem does not cause you to lose data files, it is annoying. It also makes your "Recycle Bin" unable to store "deleted" files. The following is a step-by-step procedure for fixing for this problem:

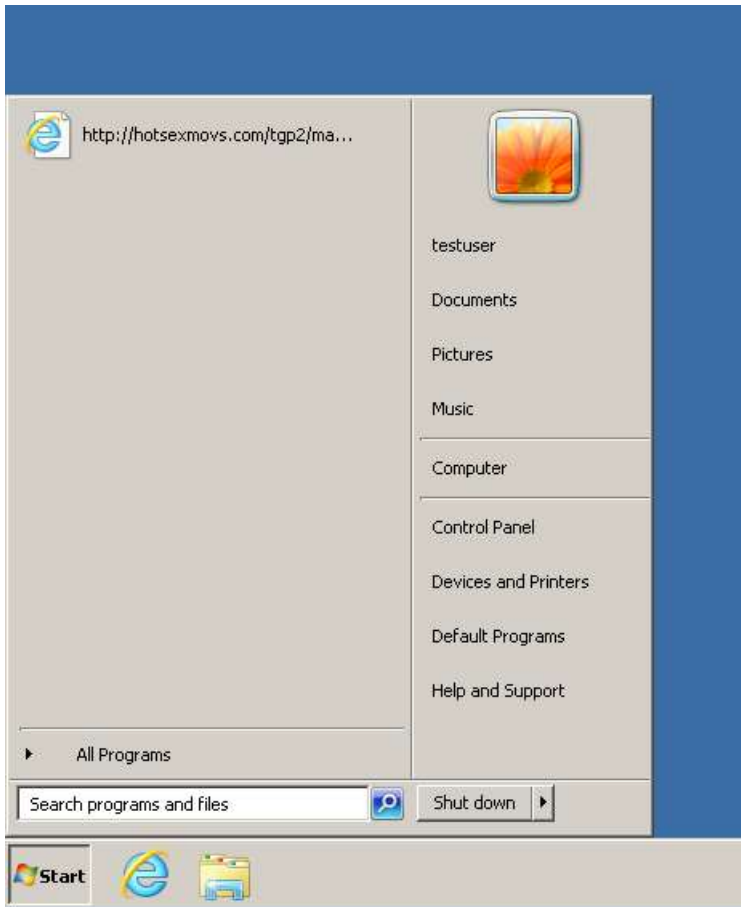

STEP BY STEP PROCEDURE

Step 1:

Click on the Windows "Start" button:

Step 2:
The "Start menu" will be displayed:

Step 3:
Click on "Control Panel" in the "Start menu".

Step 4:

Either a "Control Panel" window or an "All Control Panel Items" window will be displayed.

Step 5:

If "Appearance and Personalization" is available, click on it.

Appearance and Personalization

Change the theme

Change desktop background

Adjust screen resolution

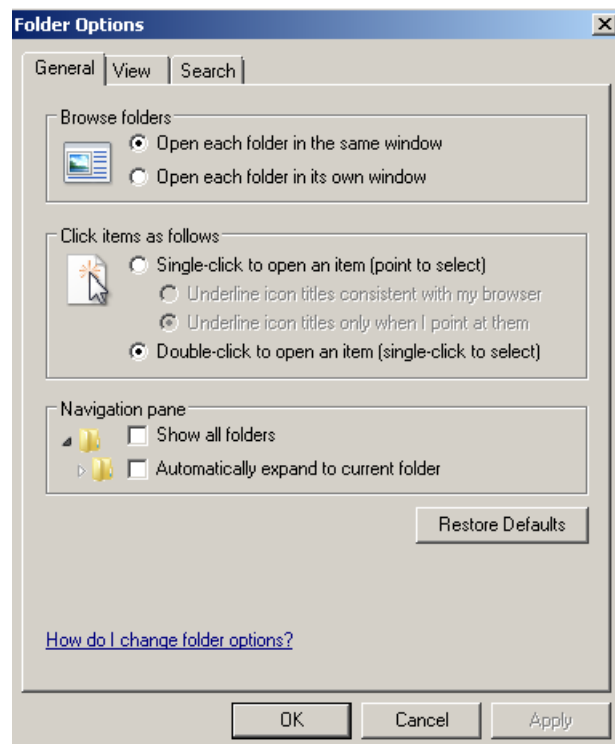

Step 6:

Double-click on "Folder Options":

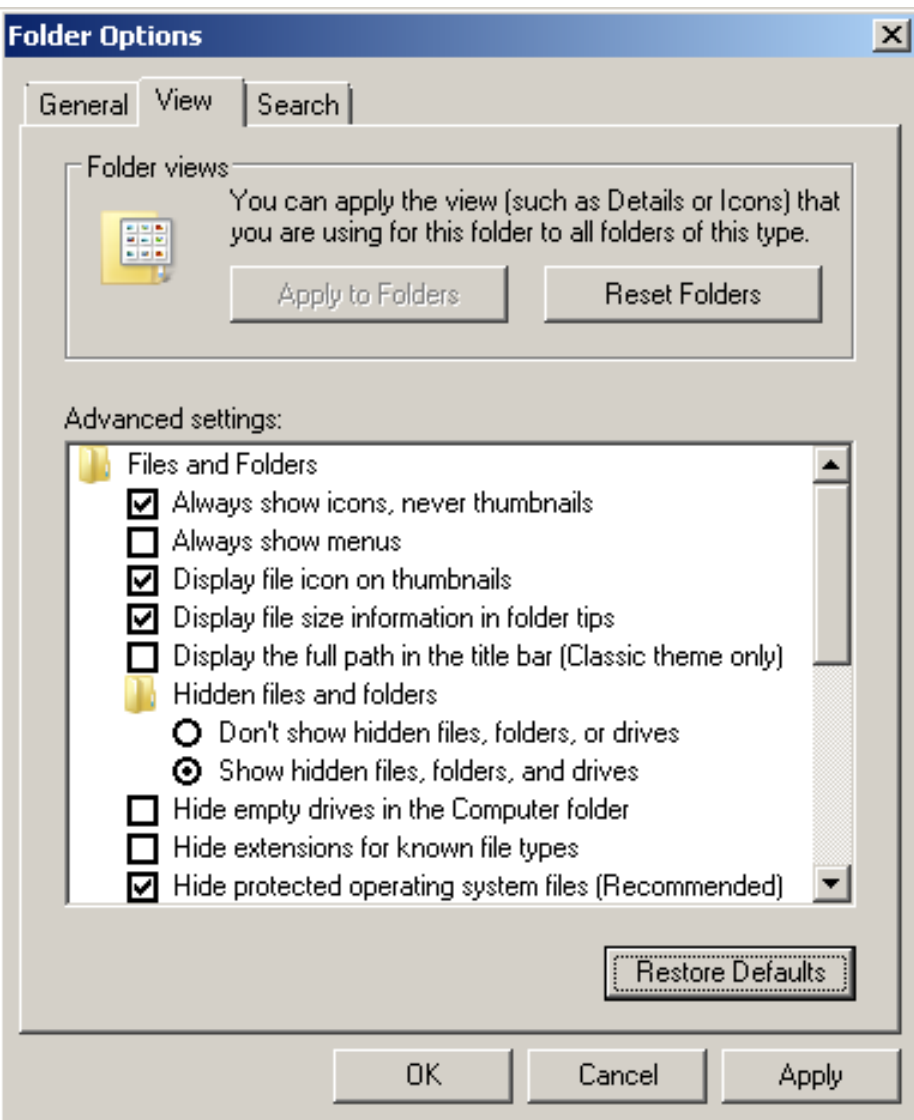

Folder Options

Step 7:
A "Folder Options" box will be displayed:

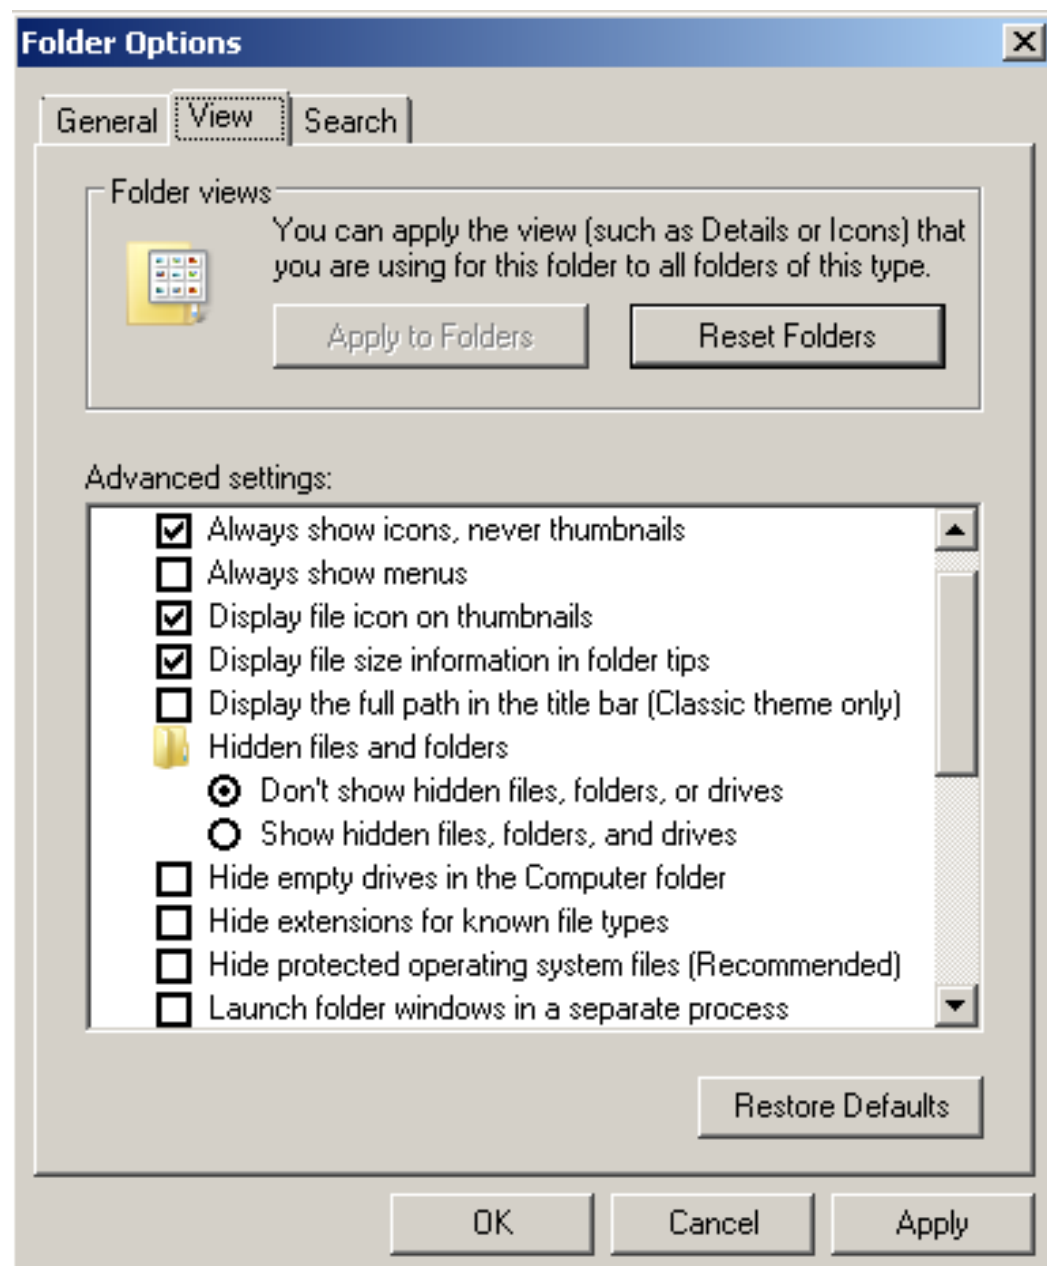

Step 8:
Click on the "View" tab of the "Folder Options" box.

Step 9:
Locate "Hide protected operating system files":

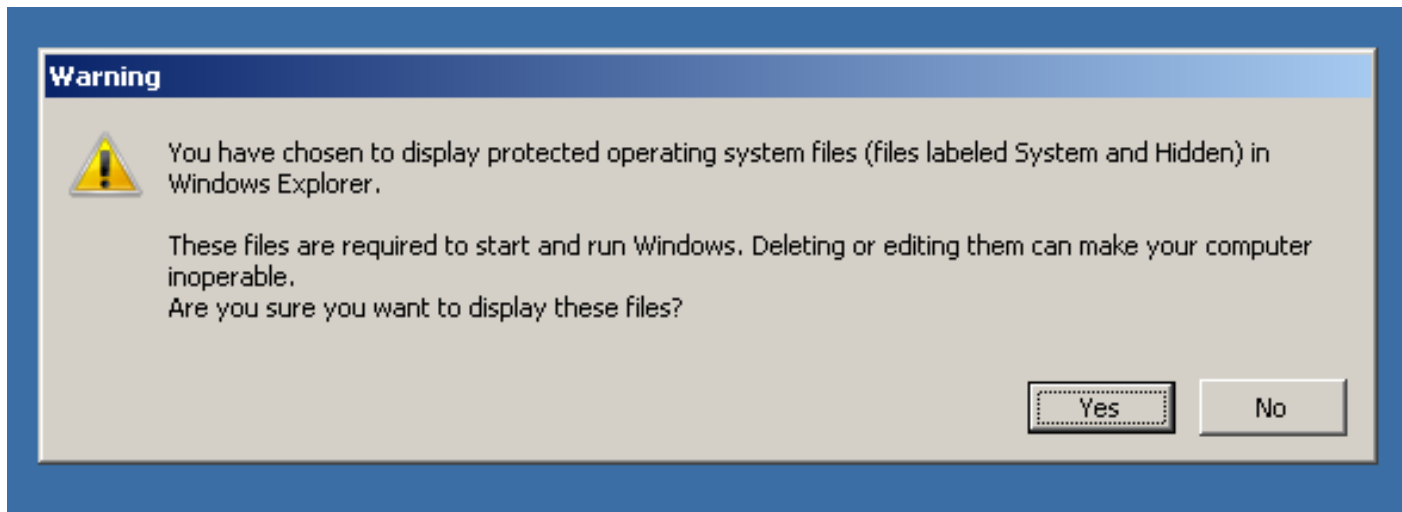

Step 10a:

Remove the checkmark from "Hide operating system files" (if a checkmark is there).

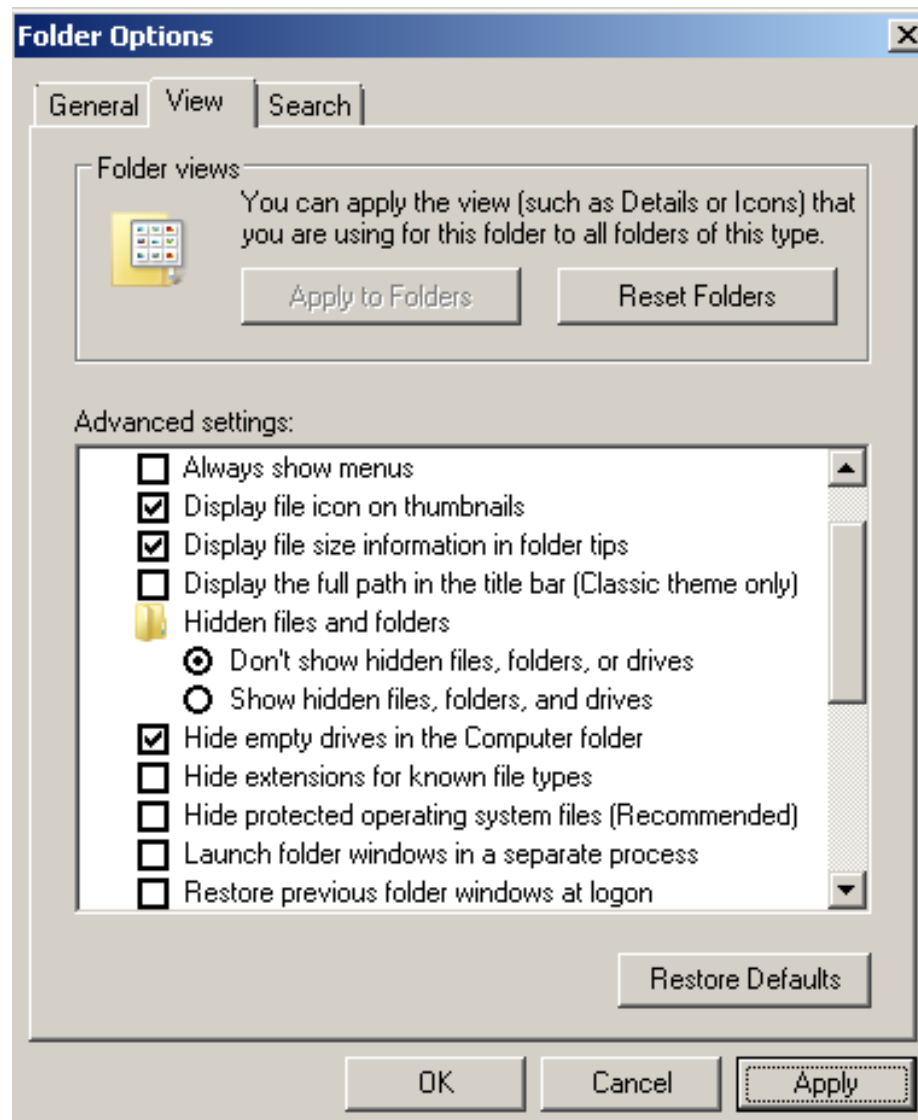

Step 10b:

If you get this warning message, click on its "Yes" button:

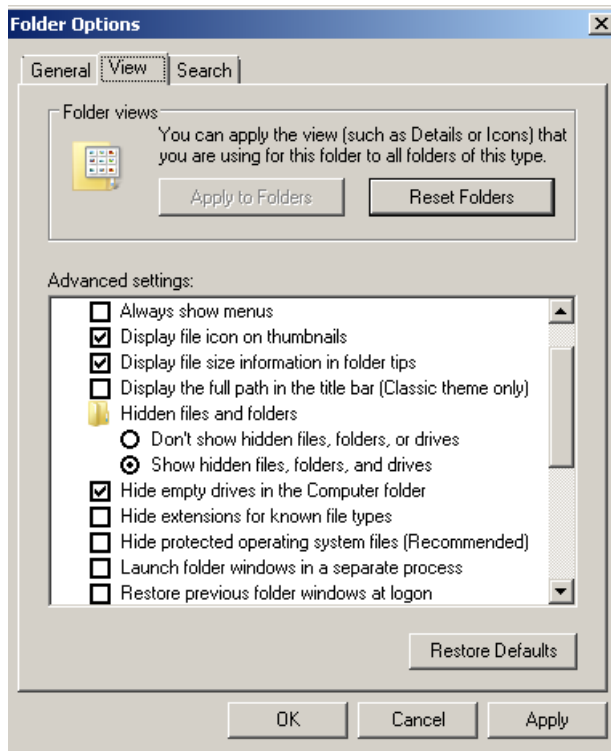

Step 11:

Locate "Show hidden files, folders, and drives":

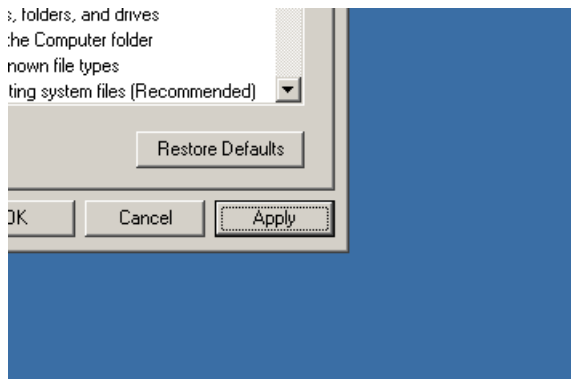

Step 12:

Select "Show hidden files, folders, and drives (if it is not already selected).

Step 13:

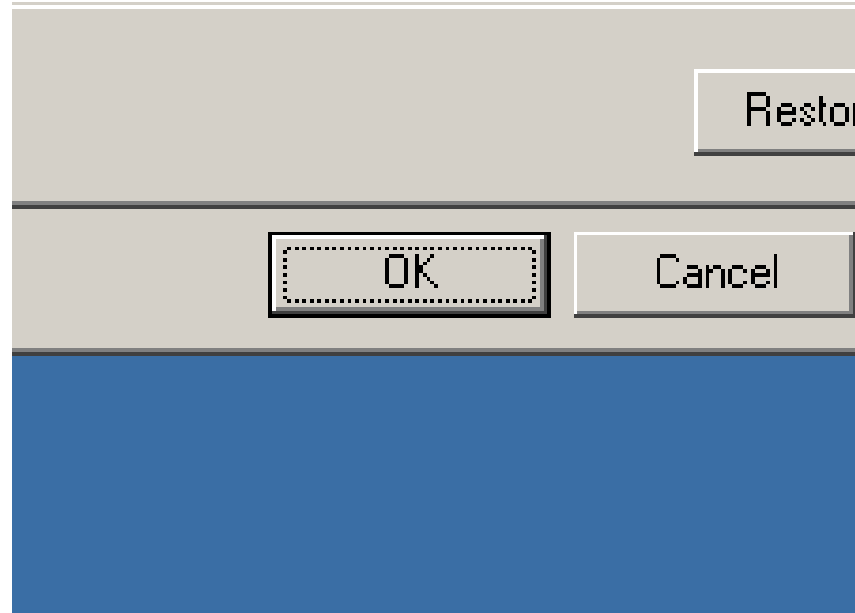

Click on the "Apply" button of the "Folder Options" box:

Step 14:

Click on the "OK" button of the "Folder Options" box:

Restore previous folder windows at logon

Step 15:

The "Folder Options" box will disappear.

Step 16:

Click on the "X" button in the upper right-hand corner of the "Control Panel" or "All Control Panel Items" window.

Step 17:
