SUMMARY
We tested various software apps for doing video editing and ran various tests to rank them from the simplest and least capable to the most complex and most capable.
TOPICS

• Video Editing Apps That Passed Our Testing Process
• Costs of the Video Editing Apps
• How Much RAM Does My Computer Need?
• Installing the Video Editing Apps
• Appendix: Video Editing Apps That Failed Our Testing Process
VIDEO EDITING APPS

The following video editing apps passed our testing process:

• "Video Editor" bundled in "Windows 10" from Microsoft (inside "Photos" in "Windows 10" it is called "Video Projects"
• "VideoPad Video Editor" by "NCH"
• "Adobe Premier Rush"
• "Adobe Premiere Elements 2020"
• "Adobe Premiere Pro"
COSTS OF APPS FOR VIDEO EDITING

- "Video Editor" is bundled for free in "Windows 10" from Microsoft
- "Adobe Premiere Rush" ($10 per month)
- "VideoPad Video Editor" by "NCH" (free for non-commercial home use)
- "Adobe Premiere Elements 2020" ($70 one time cost)
- "Adobe Premiere Pro CC" ($31 per month)
HOW MUCH RAM DO I NEED TO RUN VIDEO EDITING APPS?

- The amount of RAM that you need to successfully run depends on two things:
  - The amount of RAM that your specific video editing app needs
  - The size and duration of the video, photo, and audio files that you will be importing into the video editing app
HOW MUCH RAM DO I NEED..?
(continued)

• "Video Editor" bundled in "Windows 10"
• "Adobe Premier Rush"
• "VideoPad Video Editor" by "NCH"
• "Adobe Premiere Elements 2020"
• "Adobe Premiere Pro"
RUNNING VIDEO EDITING APPS IN A "WINDOWS.." COMPUTER

• If you try to run any video editing app while Microsoft's "Windows Update" is busy updating your computer, your video editing app will probably either fail to start up or freeze after it has started:

Prior to running any video editing app, it is a good idea to go to "Settings" in "Windows 10" and do a manual update of your computer
RUNNING VIDEO EDITING APPS IN A "WINDOWS.." COMPUTER
(continued)

• Video editing apps are very sensitive to the level of optimization/defragmentation of the hard drive where your C: drive partition is located: Prior to using any video editing app, optimize/defragment your hard drive. Do not rely on Windows.. to automatically do it for you.
RUNNING THE BUNDLED "VIDEO EDITOR" IN "WINDOWS 10"

• Two ways to start up bundled "Video Editor" in "Windows 10..":
  Method 1:
  Locate "Video Editor" in the "Start Menu" and click on it
  Method 2:
  Locate and click on "Photos" in the "Start Menu"; then click on "More"; then click on "Video Projects"
INSTALLING THE FREE VERSION OF "VIDEOPAD VIDEO EDITOR"
