

## "Travis Touch" Translator

By George Harding

Tucson Computer Society

December 14, 2018

This unique product is one that any intercontinental traveler ought to have. It translates over 100 languages and can even be used to teach a language!

Think of arriving in a foreign country, where you do not speak the language, much less understand the various dialects, and try to communicate with a taxi driver, hotel personnel, restaurant personnel and so on. Even if you know a bit of the language, it's difficult to be understood and to understand.

The "Travis Touch" translator comes to your rescue! It must be an excellent tool that is super helpful, because the company has shipped over 120,000 devices worldwide.

The device connects to 4G, Bluetooth and Wi-Fi and can be used as a hotspot as well. It has a small screen that shows the translation of the reply to your speech. A handy feature is noise canceling.

The price is only \$199 instead of the usual \$249, for a limited time. It comes with the free Teacher Add-on for learning one of the supported languages.

Some of the languages supported are: Albanian, Arabic, Chinese Traditional, Czech, Danish, Dutch, Italian, Japanese, Russian, Swahili, Vietnamese and more!
